

User Interface Design → Team Member Evaluation, Spring 2014

Your Name _____ Project #: _____

Evaluate each member of your design team including yourself using ONLY the numbers 5, 4, 3, 2, 1 or 0. Base this score on the level of effort and contribution of that individual to the team design project. Team members may receive the same score. Explain your score using the comments field below each team member. Note: All of this information will remain confidential with the instructors.

Guidance on scoring:

- 5 - did everything. Coordinated or attended all the group meetings. Kept group focused. Created results. Key person for the success of the group. **A major team player.**
- 4 - participated regularly. Always did what was assigned and on time, was concerned about the success of the project, but not a driving force. **A successful team player.**
- 3 - participated the majority of the time. Usually did what was assigned on time, was interested in the success of the project. **An average team player.**
- 2 - participated occasionally. Usually did what was assigned, possibly late. Was not particularly concerned about the success of the project. **A below average team player.**
- 1 - did little for the group. Whenever asked to do some tasks, usually had an excuse for not being able to contribute to the project. **A poor team player.**
- 0 - did practically nothing for the group. Rarely showed up. Got little or nothing done. Always had an excuse. **A detriment to the team.**
